

2014 ANNUAL REPORT

Providing compassionate care to those in need

LIVE UNITED

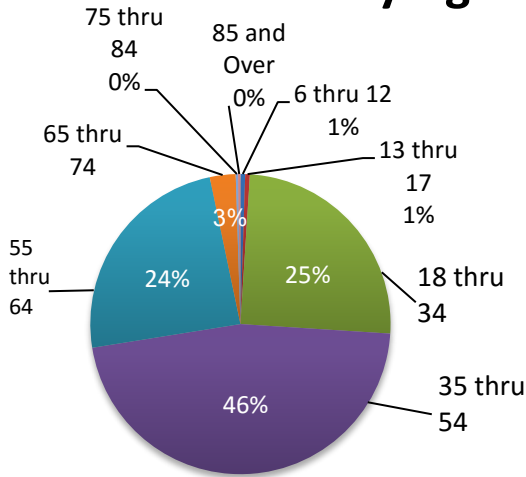

Greater Milwaukee
& Waukesha County

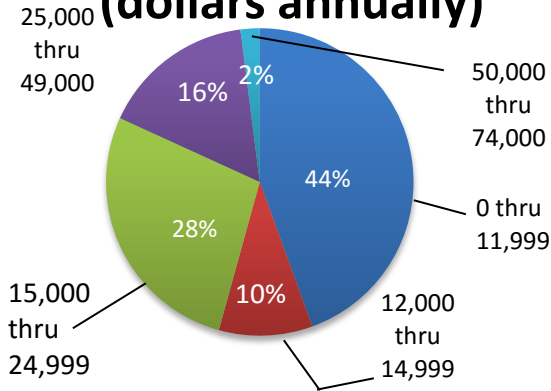

ST. JOSEPH'S
medical clinic, inc.

2014: 411 Patients Served

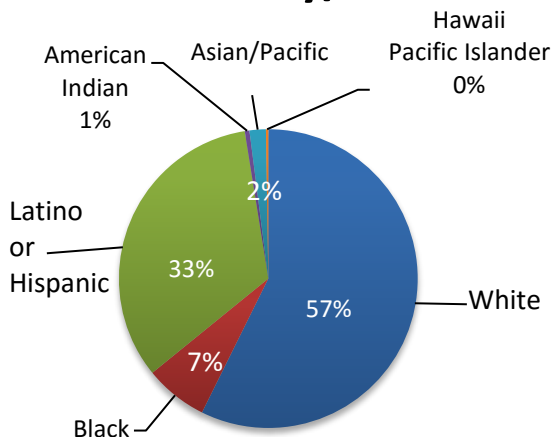

Individuals by Age

Household Income (dollars annually)

Ethnicity/Race

Dear Friends and Neighbors,

Though the Affordable Care Act's intent was to provide health insurance to many in our nation, it is not and was never intended to be universal health care coverage. Approximately, 6% or 23,600 community residents of Waukesha remain uninsured in 2015. Many more are underserved and struggling with their healthcare costs even with having insurance. Deductibles and co-pays particularly for the chronically ill along with insurance premiums can be a juggling act for community residents with increasing costs for food, childcare, medications, housing, and transportation.

St. Joseph's Medical Clinic, Inc. began its mission in providing healthcare services for the underserved and uninsured 38 years ago. A local group of proactive and forward-thinking community leaders undertook a grassroots effort to open the clinic. They were able to anticipate broad-based community health needs so that the clinic can continue to serve its mission as a critical safety net, healthcare provider today. Though state and federal laws addressing the nation's healthcare system shift, so do the emerging medical care gaps. Nation-wide, free and charitable clinics have the organizational readiness, expertise and prudence to adapt and address the evolving community health needs. St. Joseph's is one of the longest-standing independent free and charitable clinics in the state of Wisconsin, and leverages its community partnerships and resource navigation in providing individuals and families with compassionate and quality healthcare.

This would not be possible without the partners who have continued so generously, and with foresight, to donate their time, talents, and financial contributions towards the success of our mission. In this report, we wish to share with you the highlights throughout the past year, and to gift you with the knowledge that your contribution makes a powerful and lasting impact to our friends and neighbors in need.

Jessica Osenbrügge
Executive Director

Phillip Stroupe
Board President

New Executive Director, Jessica Osenbrügge, began her appointment with the clinic June 1st, 2015.

Who Receives Help

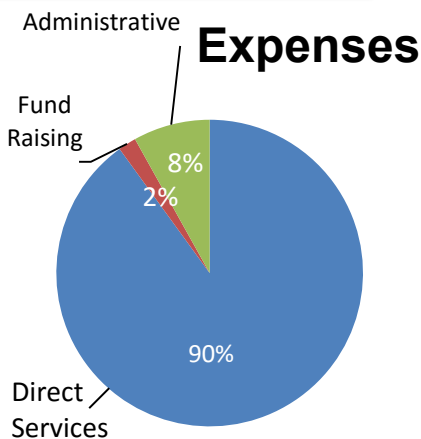

Waukesha County community members whose household income meets criteria. For example, the guideline for a family of four is at \$5,058 dollars per month (250% of Federal Poverty Limits) or less.

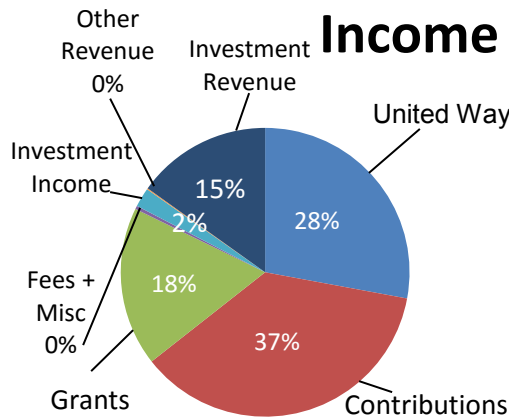

An individual receiving a blood pressure check at one of five community outreach events in which we participated in the Waukesha County community

2014 Highlights

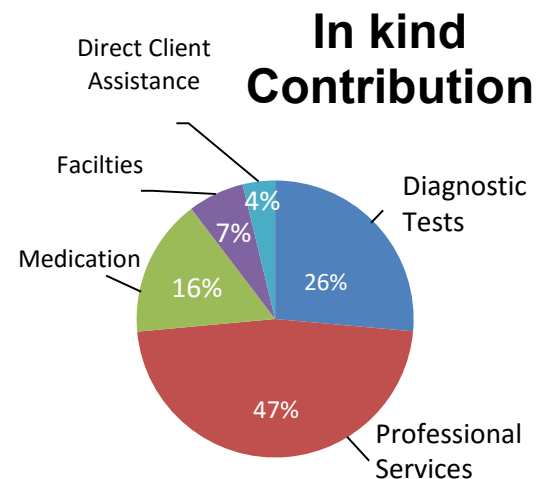

- A total of 834 on-site services were provided including medications, clinic appointments, and coordination of healthcare access
- Individuals served reside in a wide geographic area of Waukesha County
- 547 clinic appointments serving 393 unduplicated patients
- 79 medical referrals to network providers
- 469 lab tests were completed on clinic site
- 436 lab and diagnostic tests provided off site by network providers
- 927 prescriptions were provided to 394 patients
- Medical Case Management for homeless families and individuals served 19 county residents
- Through the Diabetes Waukesha Wellness Working Together Grant SJMC served 10 Spanish speaking patients
- 102 patients were supported by the Waukesha County Community Block Development Grant to obtain their medications
- 361 patients received medication assistance through support of clinic
- 42 classes were provided to the public and the community on topics such as foot care, diabetic self-care, breast health and dental care
- 898 phone or walk in referrals were received to help residents access and navigate needed community resources
- 169 individuals were provided assistance in enrolling in health insurance through BadgerCare or private insurance on Healthcare.gov.
- 68 enrolled in Badger Care and received further assistance accessing care
